Presented by Institute for LE Education

This three-day course of instruction is designed to facilitate both patrol officers and criminal investigators while dealing with deceptive subjects. This course utilizes video from real life interviews so that the student has the opportunity to see the successful employment of the techniques that are taught. Extensive instruction and discussion of video examples that detail what deception looks and sounds like will provide the student with valuable insight into detecting deception.

We will discuss the steps to interrogation which include developing themes and tailoring a monologue, positively confronting the deceptive subject, handling any denials, redirecting their resistance to telling the truth and gaining the guilty person's trust through empathy and rapport building.
